

CLEARWAVE WATER SOLUTIONS

AERO

AIR-OVER-CARBON ODOR & TASTE FILTER

Air does the work.

The Aero is a whole-home filtration system engineered to eliminate bad odors and improve the taste of your water. It reduces hydrogen sulfide, the source of the rotten-egg smell, along with chlorine and other contaminants, for cleaner, better-tasting water at every tap in your home.

KEY ADVANTAGES

- **ELIMINATES ROTTEN-EGG ODOR**
Strips out hydrogen sulfide, the source of that rotten-egg smell, right at the source.
- **AIR OVER CARBON**
An air space off-gasses the sulfur, then a catalytic carbon bed captures what is left.
- **CHLORINE & CHEMICALS REDUCED**
Cuts chlorine, chloramines, THMs, pesticides, and other organic chemicals.
- **BETTER-TASTING WATER**
Clean water, coffee, and tea straight from the tap, with no chemical aftertaste.
- **SELF-CLEANING, LOW UPKEEP**
Backwashes the carbon and pulls a fresh air charge on its own. Almost no maintenance.
- **THREE TANK SIZES**
Scale from a 10 inch tank up to 12 or 13 inch for your home's flow.

PRECISION

PURITY

PROTECTION

PRIDE

Air Over Carbon.

The Aero works in two stages. As water enters the tank, an air space off-gasses the hydrogen sulfide that causes the rotten-egg smell. The water then flows through a bed of catalytic carbon that traps chlorine, chemicals, and the contaminants behind bad taste and odor. Clean, fresh water flows to every tap.

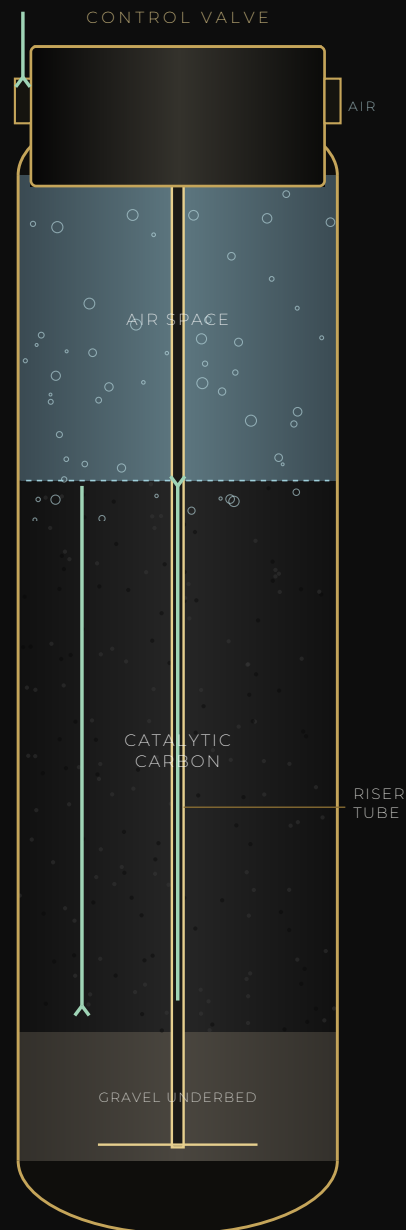

HOW IT WORKS

- 01 AIR-SPACE OFF-GASSING**
Untreated water enters the tank through an air space that off-gasses hydrogen sulfide, the rotten-egg smell.
- 02 CATALYTIC CARBON CAPTURE**
Water passes through a catalytic carbon bed that traps sulfur, chlorine, chemicals, and other taste and odor contaminants in its pores.
- 03 CLEAN WATER DELIVERY**
Fresh, clean-tasting water rises through the riser tube and flows to every fixture for drinking, bathing, and cooking.
- 04 AIR-RECHARGE BACKWASH**
The valve backwashes the carbon and injects fresh air, off-gassing sulfur and keeping the bed clean for a longer life.

THE AIR-OVER-CARBON ADVANTAGE

- **OFF-GASSING POWER**
The air space clears sulfur that carbon alone struggles to hold, so odor does not break through.
- **LONGER CARBON LIFE**
Backwashing and fresh air keep the carbon pores open, extending the life of the bed.
- **NO SALT, NO CHEMICALS**
Runs on air and carbon. Nothing to refill, nothing to add.

INSIDE THE AERO

AERO AIR-OVER-CARBON SYSTEM . TECHNICAL CUTAWAY

Taste Nothing. Smell Nothing.

A basic carbon filter clogs, channels, and lets sulfur odor slip through. The Aero pairs an air space with a catalytic carbon bed, so it off-gasses the rotten-egg smell and traps chlorine, chemicals, and the contaminants behind bad taste, then cleans itself.

AERO vs. A STANDARD CARBON FILTER

WHAT EACH SYSTEM IS BUILT TO HANDLE

Capability comparison based on system design and typical well-water conditions. Actual results vary with water chemistry and sizing.

SYSTEM SPECIFICATIONS

	AERO 10	AERO 12	AERO 13
Tank Dimensions	10" x 54"	12" x 52"	13" x 54"
Max Flow Rate	15-23 GPM	15-23 GPM	15-23 GPM
Backwash Rate	15-23 GPM	15-23 GPM	15-23 GPM
Filter Media	Catalytic Carbon		
Backwash Control	Electronic		
Regeneration	Air-Recharge		

OPERATING PARAMETERS

pH Range	5.5 - 9.5
Water Temp	40 - 110 F
Free Chlorine	Reduced
Pre-Filtration	Recommended
Salt Required	None
Filter Media	Catalytic Carbon

WHAT AERO TAKES OUT

- Hydrogen Sulfide (Odor)
- Chlorine & Chloramines
- Trihalomethanes (THMs)
- Pesticides & Organics
- Synthetic Chemicals
- Bad Taste & Odor

◆ ODOR GONE FOR GOOD

The air space off-gasses the rotten-egg sulfur smell that basic carbon filters let slip through.

◆ CLEAN, GREAT TASTE

Carbon strips chlorine, chemicals, and organics, so water, coffee, and tea taste the way they should.

Protected for Life.

THE CLEARWAVE WARRANTY

TANK

Lifetime coverage on the pressure vessel. No degradation, no exceptions.

VALVE HEAD

Full coverage on the electronic backwash control valve.

MEDIA

The catalytic carbon media is warranted for performance.

LABOR

Every service call, every repair, every maintenance visit. Covered.

WHITE-GLOVE CONCIERGE SERVICE

- Professional installation by ClearWave technicians
- Annual system health check and performance verification
- Priority same-day or next-day service response
- Dedicated account manager for all water quality needs
- Direct line to your ClearWave specialist

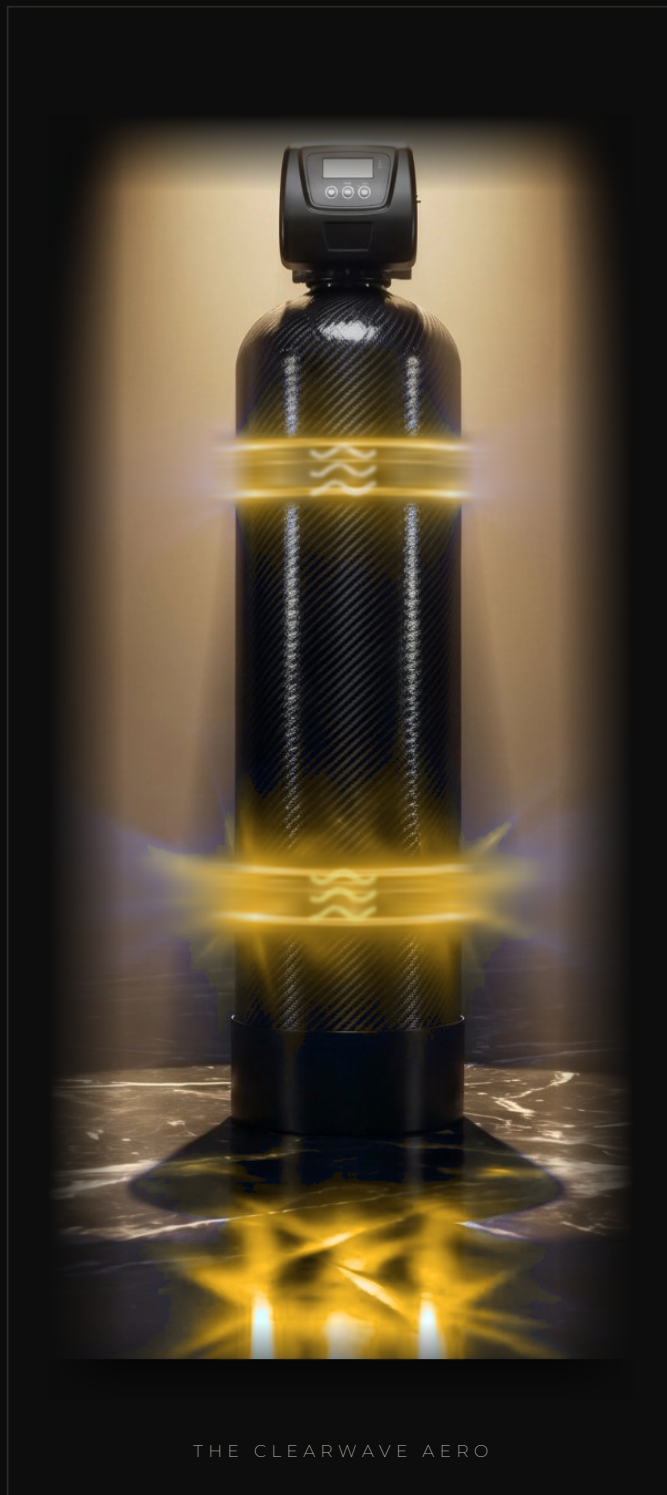

AIR OVER CARBON | ODOR + TASTE + CHEMICALS

The whole-home odor and taste solution.

10 / 12 / 13 inch tanks | Backwash Valve | Lifetime Warranty

VETERAN-OWNED AND OPERATED

ClearWave Water Solutions is proudly veteran-owned and operated. We bring the same discipline, precision, and commitment to excellence that defined our military service to every installation we perform. Your home deserves nothing less.
