

CLEARWAVE WATER SOLUTIONS

MERIDIAN

WATER TREATMENT COLLECTION

*Where science meets
sophistication.*

The ClearWave MERIDIAN represents a new class of residential water treatment. By combining four premium filtration media with dual performance layers in a single intelligent system, it delivers comprehensive protection that no single-media system can match.

Engineered for homeowners who refuse to compromise, the MERIDIAN reduces chlorine, chloramines, VOCs, heavy metals, and hard water scale simultaneously.

KEY ADVANTAGES

- **CATALYTIC CARBON**
Neutralizes chloramines and chemical taste at the molecular level.
- **COCONUT SHELL CARBON**
Secondary carbon stage captures VOCs and residual chlorine.
- **KDF HEAVY METAL REDUCTION**
Electrochemical media removes lead, mercury, and extends carbon life.
- **ANTI-BACTERIA PROTECTION**
Inhibits bacterial colonization within the media bed.
- **HIGH CROSS-LINK RESIN**
Premium ion exchange resin outlasts standard 8% alternatives.
- **GARNET POLISHING BED**
High-density layer ensures optimal flow and sediment-free delivery.

Engineered to Exceed.

The MERIDIAN is not an incremental upgrade. It is a fundamentally different approach to residential water treatment. Where most systems rely on a single filtration media, the MERIDIAN layers four distinct media types in a precisely engineered sequence, each targeting a specific category of contaminant.

HOW IT WORKS

01 INTELLIGENT CONTROL

Water enters through the Clack WS1 electronic metering valve, tracking usage and triggering regeneration only when capacity demands it.

02 CATALYTIC CARBON STAGE

Premium catalytic activated carbon breaks down chloramines and neutralizes chemical taste and odor at the molecular level.

03 COCONUT SHELL CARBON

A secondary bed of coconut shell activated carbon captures volatile organic compounds and remaining taste and odor compounds.

04 KDF MEDIA STAGE

Electrochemical KDF media reduces heavy metals including lead and mercury while extending the life of the carbon beds above.

05 ION EXCHANGE STAGE

High cross-link cation resin captures calcium and magnesium ions, eliminating hard water scale with superior chlorine resistance.

06 GARNET POLISHING

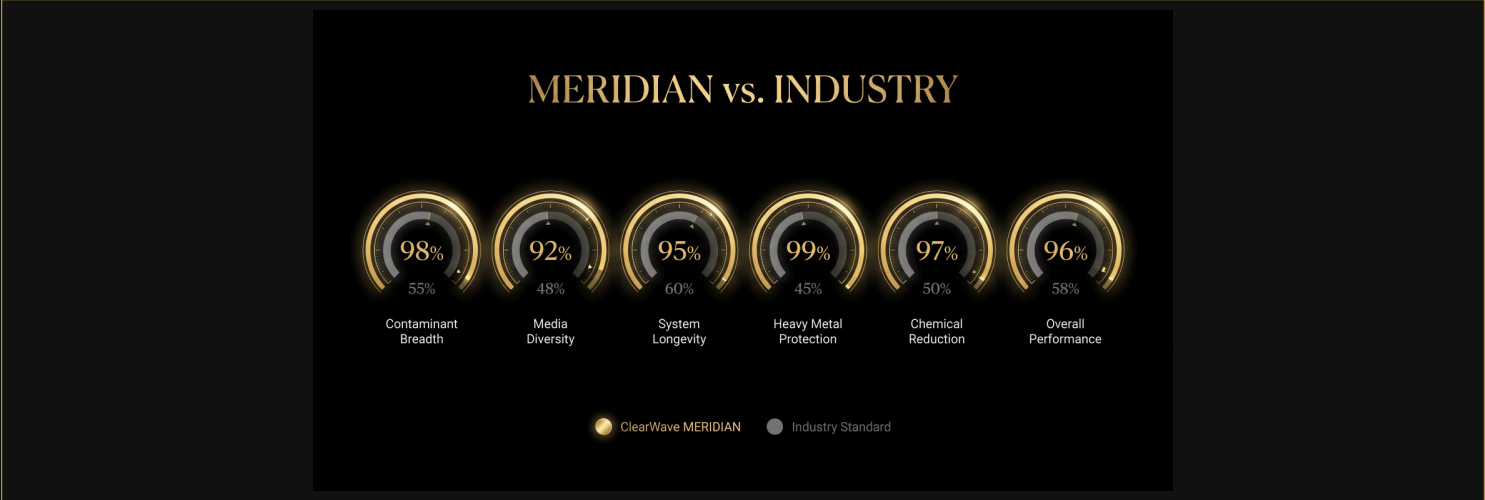

High-density garnet filtration provides superior flow distribution and captures fine particulates for crystal-clear delivery.

INSIDE THE MERIDIAN

Beyond What Any Single Competitor Offers.

The MERIDIAN does not compete with standard softeners or basic carbon filters. It competes with the idea that you need multiple separate systems to achieve comprehensive water treatment. One system. Six stages. Complete protection.

Protected for Life.

CLEARWAVE LIFETIME WARRANTY

TANK

Lifetime coverage on the pressure vessel. No degradation, no exceptions.

VALVE HEAD

The Clack WS1 control valve is warranted for life against defects.

MEDIA

All internal filtration media and resin beds are warranted for life.

LABOR

Every service call, every repair, covered for the life of the system.

WHITE-GLOVE CONCIERGE SERVICE

- Professional installation by ClearWave technicians
- Annual system health check
- Filter change reminders and scheduling
- Priority service response
- Direct line to your ClearWave specialist

4 FILTRATION MEDIA + 2 PERFORMANCE LAYERS

Where science meets sophistication.

VETERAN-OWNED AND OPERATED

ClearWave Water Solutions is proudly veteran-owned and operated. We bring the same discipline, precision, and commitment to excellence that defined our military service to every installation we perform. Your home deserves nothing less.
