

CLEARWAVE WATER SOLUTIONS

SOVEREIGN

WATER TREATMENT COLLECTION

*Approaching distilled quality
from every tap.*

The ClearWave SOVEREIGN represents a paradigm shift in residential water treatment. By combining advanced catalytic carbon with a revolutionary multi-media DI resin bed, it delivers the purity of a commercial system without the uncomfortable slippery feeling of traditional softeners.

KEY ADVANTAGES

- **MULTI-MEDIA DI RESIN BED**
Eliminates hard water scale while removing the slippery feeling of traditional softeners.
- **CATALYTIC CARBON STAGE**
Neutralizes chloramines, chlorine, and chemical taste at the molecular level.
- **KDF HEAVY METAL REDUCTION**
Electrochemical media removes lead, mercury, and extends carbon life.
- **ANION FILTRATION**
Advanced protection against nitrates, sulfates, and complex emerging contaminants.
- **33% LESS WATER USAGE**
Intelligent metering and precision flow distribution conserve water and salt during regeneration.
- **COMMERCIAL FLOW RATES**
15-23 GPM service flow delivers whole-home coverage without pressure drop.

Engineered for the Exceptional.

The SOVEREIGN utilizes a dual-chamber tank design to separate its advanced filtration media from its revolutionary DI resin bed. This ensures maximum contact time for chemical reduction before the water is conditioned, resulting in unparalleled purity and a natural, clean feel.

HOW IT WORKS

- 01

INTELLIGENT CONTROL
Water enters through the Clack WS1 electronic metering valve, tracking usage and self-initiating cleaning for maximum efficiency in water and salt conservation.
- 02

CATALYTIC CARBON STAGE
Premium catalytic activated carbon breaks down chloramines, VOCs, and disinfection byproducts in the upper chamber.
- 03

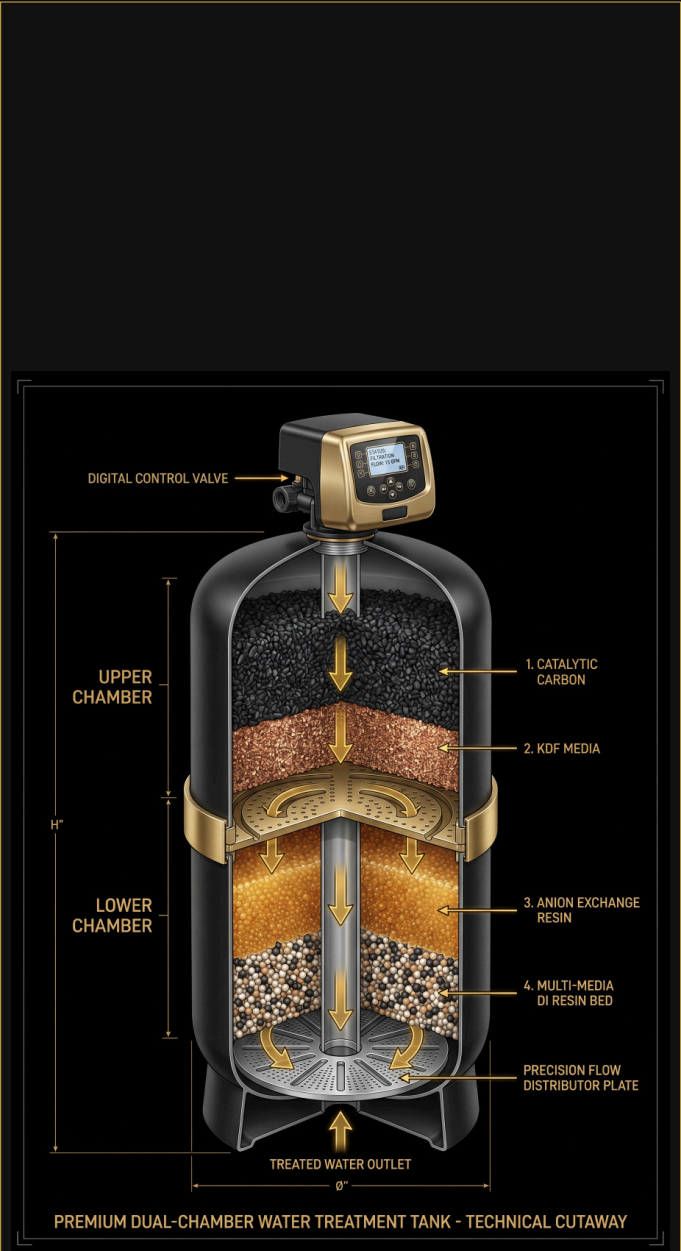

KDF MEDIA STAGE
Electrochemical KDF media reduces heavy metals including lead and mercury while extending the life of the carbon bed above.
- 04

ANION FILTRATION
Specialized anion exchange resin targets complex contaminants like nitrates and sulfates that standard systems cannot address.
- 05

MULTI-MEDIA DI RESIN BED
A revolutionary dual-resin blend in the lower chamber captures hardness minerals while eliminating the slippery soft water feel.
- 06

PRECISION FLOW DISTRIBUTION
Clean, filtered water flows through an advanced distributor plate, ensuring optimal pressure and efficient regeneration with 33% less water.

INSIDE THE SOVEREIGN

Beyond Soft Water.

Standard softeners only address calcium and magnesium. The SOVEREIGN is a comprehensive water refinement system that targets a multitude of mineral, chemical, and disinfectant contaminants, making your water safer, healthier, and distinctly cleaner.

SYSTEM SPECIFICATIONS

Tank Dimensions	13" x 54"	Service Flow Rate	15-23 GPM
Grain Capacity	64,000 grains*	Operating Pressure	40 - 90 PSI
Inlet / Outlet	1" NPT	Control Valve	Clack WS1 Electronic Metered
Upper Chamber	Catalytic Carbon + KDF + Anion	Lower Chamber	Multi-Media DI Resin Bed
Regeneration	Demand-initiated (33% more efficient)	Salt per Regeneration	~10 lbs

*Grain capacity customizable to higher rates based on household demand.

CONTAMINANT REDUCTION PROFILE

- Chlorine and Chloramines
 - Heavy Metals (Lead, Mercury)
 - Nitrates and Sulfates
 - Emerging Contaminants
- Volatile Organic Compounds (VOCs)
 - Hard Water Minerals (Ca, Mg)
 - Pharmaceuticals
 - Taste and Odor Compounds

WHY CHOOSE THE SOVEREIGN

- **NO SLIPPERY FEELING**
Enjoy the benefits of soft water without the uncomfortable residue. The DI resin bed delivers a natural, clean feel that standard softeners cannot achieve.
- **COMMERCIAL-GRADE CAPACITY**
The 13-inch tank and **15-23 GPM** flow rate ensure consistent pressure even when multiple showers and appliances are running simultaneously.
- **MAXIMUM EFFICIENCY**
The intelligent control valve and precision distributor plate make the SOVEREIGN 33% more efficient in water and salt conservation than standard systems.
- **COMPREHENSIVE PROTECTION**
From heavy metals to complex chemical compounds, the multi-stage filtration provides peace of mind that standard softeners simply cannot match.

Protected for Life.

CLEARWAVE LIFETIME WARRANTY

TANK

Lifetime coverage on the pressure vessel. No degradation, no exceptions.

VALVE HEAD

The Clack WS1 control valve is warranted for life against defects.

MEDIA

All internal filtration media and resin beds are warranted for life.

LABOR

Every service call, every repair, covered for the life of the system.

WHITE-GLOVE CONCIERGE SERVICE

- Professional installation by ClearWave technicians
- Annual system health check
- Filter change reminders and scheduling
- Priority service response
- Direct line to your ClearWave specialist

MULTI-MEDIA DI RESIN BED

Approaching distilled quality from every tap.

VETERAN-OWNED AND OPERATED

ClearWave Water Solutions is proudly veteran-owned and operated. We bring the same discipline, precision, and commitment to excellence that defined our military service to every installation we perform. Your home deserves nothing less.
